

There is also a useful feature where you can import all H&F u3a events into your personal calendar. If you go to the “Calendar” page, you will see the URL to import the events into your calendar (viz. https://handf.u3asite.uk/wp-content/uploads/event_calendars/u3a_event_calendar.ics).

I can only describe how this works for Google Calendar, but I assume it is similar for other calendars. To the left of the Calendar page in your browser, you should see something like this:

My calendars

- ☒ Neville Rowden
- ☒ Birthdays
- ☒ Neville Rowden (social)
- ☐ Tasks

Other calendars +

- ☒ H&F u3a

If you click on “+”, there will be a pop-up menu where you can select “From URL”.

You can add a calendar using the iCal format by its address.

This is why you can paste the URL from the “Calendar” page.

Once it has been created, you can click on the 3 dots to the right of the newly created calendar (hover the cursor over the target calendar):

There you can select “Settings” from the pop-up menu.

Here, you can change various things. I have changed the name of my calendar to H&F u3a.
